TERMINAL DISCLAIMER UNDER 37 C.F.R. §1.321(B)

Assistant Commissioner for
Patents
Washington, D.C. 20231

Sir:

Petitioner, American Management Systems, Inc., is the owner of one hundred percent interest in the instant application by virtue of an Assignment recorded on February 26, 1999, at Reel 9810, Frame 0266. Petitioner has reviewed the evidentiary Assignment documents, and to the best of the undersigned's knowledge and belief, the title is in the name of American Management Systems, Inc., as specified previously. Petitioner hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the instant application, which would extend beyond the expiration date of the full statutory term defined in 35 USC §§154 to 156 and 173, as presently shortened by any terminal disclaimer of prior U.S. Patent No. 6,684,192, issued January 27, 2004. Petitioner hereby agrees that any patent so granted on the instant application shall be enforceable only for and during such period that it and U.S. Patent No. 6,684,192 are commonly owned. This agreement runs with any patent granted on the instant application and is binding upon the grantee, its successors or assigns.

In making the above disclaimer, petitioner does not disclaim the terminal part of any patent granted on the instant application that would extend to the expiration date of the full statutory term as defined in 35 USC §§154 to 156 and 173 of prior U.S. Patent No. 6,684,192, as presently shortened by any terminal disclaimer, in the event that it later expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR §1.321, has all claims cancelled by a reexamination certificate, is reissued, or is in any manner terminated prior to the expiration of its full statutory term as presently shortened by any terminal disclaimer.
